

UNITED STATES OF AMERICA
DEPARTMENT OF TRANSPORTATION
FEDERAL AVIATION ADMINISTRATION

Air Agency Certificate

Number DSCR311D

This certificate is issued to

National Flight Services, Inc.

whose business address is

10971 East Airport Service Road
Swanton, OH 43558

*upon finding that its organization complies in all respects
with the requirements of the Federal Aviation Regulations
relating to the establishment of an Air Agency, and is
empowered to operate an approved* Repair Station

with the following ratings:

Airframe
Limited Airframe
Limited Powerplant
Limited Accessory (01/28/2009)
Nondestructive Inspection (01/28/2009)
Limited Instrument (10/05/2016)
Limited Radio (10/05/2016)

*This certificate, unless canceled, suspended, or revoked,
shall continue in effect* Indefinitely

Date issued:

December 19, 1972
Re-issued 10/05/2016

By direction of the Administrator

Leroy G. Moore, Manager
Cleveland FSDO GL25

This Certificate is not Transferable, AND ANY MAJOR CHANGE IN THE BASIC FACILITIES, OR IN THE LOCATION THEREOF,
SHALL BE IMMEDIATELY REPORTED TO THE APPROPRIATE REGIONAL OFFICE OF THE FEDERAL AVIATION ADMINISTRATION

Any alteration of this certificate is punishable by a fine of not exceeding \$1,000, or imprisonment not exceeding 3 years, or both

A001 . Issuance and Applicability

HQ Control: 02/11/2016

HQ Revision: 05e

a. These operations specifications are issued to National Flight Services, Inc., a Repair Station located in the United States, pursuant to 14 CFR Part 145, § 145.53. The repair station certificate holder shall conduct operations in accordance with 14 CFR Part 145 and these operations specifications.

The certificate holder's address:

Fixed Location:
10971 East Airport Service Road
Toledo Express Airport
Swanton, Ohio 43558

Mailing Address:
10971 East Airport Service Road
Toledo Express Airport
Swanton, Ohio 43558

b. The holder of these operations specifications is the holder of certificate number DSCR311D and shall hereafter be referred to as the "certificate holder".

c. These operations specifications are issued as part of this repair station certificate and are in effect as of the date approval is effective. This certificate and these operations specifications shall remain in effect until the certificate for a repair station that is located in the United States is surrendered, suspended, or revoked.

d. The repair station specified on these operations specifications and located within the United States performs maintenance and/or an alteration of aircraft and/or aeronautical products to be installed on aircraft under the terms and conditions of the U.S./EU Safety Agreement, Annex 2, Maintenance, between the FAA and the EU.

e. The certificate holder is authorized to use only the business name which appears on the certificate to conduct the operations described in subparagraph a.

Delegated authorities: None

1. Issued by the Federal Aviation Administration.
2. These Operations Specifications are approved by direction of the Administrator.

A002 . Definitions and Abbreviations

HQ Control: 12/14/2017

HQ Revision: 05d

Unless otherwise defined in these operations specifications, all words, phrases, definitions, and abbreviations have identical meanings to those used in 14 CFR and 49 U.S.C., as cited in Public Law 103-272, as amended. Additionally, the definitions listed below are applicable to operations conducted in accordance with these operations specifications.

BASA	The Bilateral Aviation Safety Agreement (BASA) is an executive agreement concluded between the United States and a foreign country for the purpose of promoting aviation safety; also known as an Agreement for the Promotion of Aviation Safety.
Certificate Holder	In these operations specifications, the term "certificate holder" means the holder of the repair station certificate described in these operations specifications in Part A paragraph A001 and any of its officers, employees, or agents used in the conduct of operations under this certificate.
CAAS	Civil Aviation Authority of Singapore
CFR	Code of Federal Regulations
Class Rating	As used with respect to the certification, ratings, privileges of airframes, powerplants, propellers, radios, instruments, and accessories within a category having similar operating characteristics.
EASA	European Aviation Safety Agency
EASA Accountable Manager	The manager who has corporate authority for ensuring that all maintenance required by the customer can be financed and carried out to the standard required by the EASA full-member Authority.
EU	European Union
Exemption	An authorization that permits an alternate means of compliance with a specific CFR. The exemption must meet the procedural requirements of 14 CFR Part 11.
FOCA	Federal Office of Civil Aviation
FAA Accountable Manager	A person designated by the certificated repair station who is responsible for and has authority over all repair station operations that are conducted under 14 CFR Part 145, including ensuring that the repair station's personnel follow the regulations and serving as the primary contact with the FAA.

Operations Specifications

Geographic Authorization	Authorization provided to a repair station located outside the United States to perform maintenance support under contract for a U.S. air carrier (or an operator of U.S.- registered aircraft under 14 CFR Part 129) at a location other than the repair station's main facility. A geographic authorization is issued by the FAA to respond to a U.S. air carrier's or Part 129 foreign operator's need for maintenance at a station where the frequency and scope of that maintenance does not warrant permanently staffing and equipping the station for its accomplishment.
Limited Rating	A rating issued to repair stations for the performance of maintenance on particular makes and models of airframes, powerplants, propellers, radios, instruments, accessories, and/or parts.
Limited Ratings - Specialized Services	Rating issued for a special maintenance function when the function is performed in accordance with a specification approved by the Administrator.
Line Maintenance	Any unscheduled maintenance resulting from unforeseen events, or scheduled checks where certain servicing and/or inspections do not require specialized training, equipment, or facilities.
MAG	The Maintenance Annex Guidance (MAG) defines the process that the FAA and EASA undertake in the inspection, findings of compliance certification, and monitoring of repair stations, as well as their joint cooperation in quality assurance and standardization activities in support of the EASA Agreement, Annex 2, Maintenance. The term Maintenance Agreement Guidance (MAG) defines the processes and activities applicable to a specific country under an MIP, and is not associated with the EASA Agreement.
Maintenance	The inspection, overhaul, repair, preservation, and replacement of parts, but excludes preventive maintenance.
U.S./EU Aviation Safety Agreement, Annex 2, Maintenance	Annex 2 covers the reciprocal acceptance of findings of compliance, approvals, documentation and technical assistance regarding approvals and the monitoring of repair stations/maintenance organizations.
MIP	Maintenance Implementation Procedures (MIP) are procedures for implementing the provisions of a BASA that apply to maintenance performed under 14 CFR Part 145, Section 145.53(b).
MOE	A maintenance organization exposition (MOE) pertains to procedural manuals used by maintenance organizations certificated by a foreign country. The MOE along with the FAA Supplement, sets forth the structure and procedures of the repair station to meet the requirements of 14 CFR Part 145 under a MIP.

**Preventive
Maintenance**

As defined in 14 CFR part 1 and part 43 appendix A,
subparagraph (c).

QCM

A003 . Ratings and Limitations

HQ Control: 04/03/2017

HQ Revision: 01a

The certificate holder is authorized the following Ratings and/or Limitations:

Class Ratings

Airframe Class 3: All-Metal Construction of Small Aircraft

Limited Ratings

<u>Rating</u>	<u>Manufacturer</u>	<u>Make/Model</u>	<u>Limitations</u>
Airframe	From the Capability List, as amended.	From the Capability List, as amended.	Limited to: Maintenance and preventive maintenance in accordance with manufacturer's instructions or procedures, methods and techniques acceptable to the Administrator. Major repairs and alterations in accordance with data approved by the Administrator.
			Includes: Removal, replacement, installation of radios, instruments, instrument systems, instrument panels, radio antennas, and wiring.
			Static and altimeter systems and altitude reporting equipment tests and inspections in accordance with 14 CFR 43 Appendix E.
Engines	From the Capability List, as amended.	From the Capability List, as amended.	RVSM equipment inspections and systems certification in accordance with the aircraft specific FAA Approved RVSM Maintenance Program, if exists. Otherwise in accordance with the manufacturer's or STC holder's installation/maintenance Instructions for Continued Airworthiness.
			Aircraft/components upholstery/ interior repair/refurbishment in accordance with current manufacturer's recommendations or other data/materials approved by the Administrator.
			Limited to maintenance, preventive maintenance, and alteration as determined by self assessment.
	Pratt & Whitney Division/Pratt & Whitney Corp.	JT12, JT15 Series	Limited to inspection, repair, and component replacement, not involving the disassembling of the primary rotating components, in accordance

<u>Rating</u>	<u>Manufacturer</u>	<u>Make/Model</u>	<u>Limitations</u>
			with current Pratt & Whitney maintenance instructions.
	General Electric Aircraft Engines	CJ610 Series	Limited to inspection, repair, and component replacement, not involving the disassembling of the primary rotating components, in accordance with current General Electric maintenance instructions.
	Honeywell International Inc.	TPE331-9, -14, -15, 25, -29, -43, -45, -47, -51, -55, -57, and -61 Series	Limited to inspection, repair, and component replacement, (Not to include overhaul) in accordance with current Honeywell International, Inc. maintenance instructions.
	Honeywell International Inc.	TFE731 Series	Limited to inspection, repair, and component replacement, not involving the disassembling of the primary rotating components, in accordance with current Honeywell International, Inc. maintenance instructions.
	Lycoming Engines	200, 300, 400, 500, 700, Series	Limited to the following functions, not involving disassembly of the crankcase or removal of the accessory or nose case; inspection, repair, engine component replacement, cylinder removal and replacement, in accordance with current Textron Lycoming maintenance instructions.
	Teledyne Continental Motors	65, 75, 85, 90, 100, 200, 300, 400, and 500 Series	Limited to the following functions, not involving disassembly of the crankcase or removal of the accessory or nose case; inspection, repair, engine component replacement, cylinder removal and replacement, in accordance with current Teledyne Continental maintenance instructions.
	Honeywell International Inc.	TPE331-1, -2, -3, -5, -6, -8, -10, -11, 12 and TSE331 Series	Limited to overhaul, repair, inspection, maintenance, component replacement and testing, in accordance with the manufacturer's current inspection/repair manual, overhaul manual and maintenance manual. Modifications in accordance with current Honeywell International, Inc. service bulletin accomplishment instructions or other data approved by the Administrator.
	Honeywell International Inc.	TPE331-1, -2, -3, -5, -6, -8, -10, -11, -12, -14, -15 and TSE331 Series Components	Engine components not to include airframe related accessories, (limited to overhaul, repair, inspection, maintenance, parts replacement and testing), in accordance with the manufacturer's current component overhaul manuals, component maintenance manuals, inspection/repair manuals, engine maintenance and overhaul manuals. Modifications in accordance with current Honeywell International, Inc. service bulletin accomplishment instructions or other data approved by the Administrator.
	Honeywell International Inc.	TPE331 Series engine's ITT harness repair, P/N 897529-4	In accordance with current FAA approved National Flight Services, Inc. Process Specification of the following: 72-T50-3921, Reb. B, dated 01/12/93.
	Williams	FJ44 Series	Limited to inspection, repair, and component

<u>Rating</u>	<u>Manufacturer</u>	<u>Make/Model</u>	<u>Limitations</u>
	International Company LLC		replacement, not involving the disassembling of the primary rotating components, in accordance with the current Williams maintenance instructions.
Accessories	From the Capability List, as amended.	From the Capability List, as amended.	Limited to Electrical and Mechanical. Maintenance, preventive maintenance and alteration as determined from self assessment.
Instruments	From the Capability List, as amended.	From the Capability List, as amended.	Limited to the altimeter, static systems, and automatic altitude reporting equipment tests and inspections, including integration tests, in accordance with 14 CFR Part 43, Appendix E or manufacturer's instructions . No disassembly, repair, or adjustments to altimeter except for marrying blind encoder to altimeter with manufacturer's instructions. Autopilot systems limited to in-aircraft troubleshooting; component removal, replacement, configuration; and calibration checks in accordance with manufacturer's instructions. Excludes gyroscopic maintenance.
Radio	From the Capability List, as amended.	From the Capability List, as amended.	Limited to transponder tests and inspections in accordance with 14 CFR Part 43 Appendix F, as recommended in the manufacturer's instructions. No disassembly, repair, or adjustments of transponder authorized.
Nondestructive Inspection, Testing, and Processing	Liquid Penetrant Examination	N/A	In accordance with current manufacturer's instructions, FAA Airworthiness Directives, American Society for Testing and Materials (ASTM) Specification E-1417, as amended, or other data approved by the Administrator.
Nondestructive Inspection, Testing, and Processing	Magnetic Particle Examination	N/A	In accordance with current manufacturer's instructions, FAA Airworthiness Directives, American Society for Testing and Materials (ASTM) Specification E-1444, as amended, or other data approved by the Adminisitrator.
Nondestructive Inspection, Testing, and Processing	Eddy Current	N/A	In accordance with current manufacturer's instructions, FAA Airworthiness Directives, or other data approved by the Administrator.

A449 . Antidrug and Alcohol Misuse Prevention Program

HQ Control: 07/17/2009

HQ Revision: 00a

- a. The Part 145 repair station certificate holder has elected to implement an Antidrug and Alcohol Misuse Prevention Program, because the certificate holder performs safety-sensitive functions for a 14 CFR Part 121, and 135 certificate holder and/or for a 14 CFR Part 91 operator conducting operations under Section 91.147.
- b. The certificate holder certifies that it will comply with the requirements of 14 CFR Part 120 and 49 CFR Part 40 for its Antidrug and Alcohol Misuse Prevention Program.
- c. Antidrug and Alcohol Misuse Prevention Program records are maintained and available for inspection by the FAA's Drug Abatement Compliance and Enforcement Inspectors at the location listed in Table 1 below:

Table 1

	Location & Telephone of Antidrug and Alcohol Misuse Prevention Program Records:
Telephone Number:	A1 419-865-2311
Address:	10971 East Airport Service Drive
Address:	N/A
City:	Swanton
State:	OH
Zip code:	43558

d. Limitations and Provisions.

- (1) Antidrug and Alcohol Misuse Prevention Program inspections and enforcement activity will be conducted by the Drug Abatement Division. Questions regarding these programs should be directed to the Drug Abatement Division.
- (2) The certificate holder is responsible for updating this operations specification when any of the following changes occur:
 - (a) Location or phone number where the Antidrug and Alcohol Misuse Prevention Program Records are kept.
 - (b) If the certificate holder's number of safety-sensitive employees goes to 50 and above, or falls below 50 safety-sensitive employees.
- (3) The certificate holder with 50 or more employees performing a safety-sensitive function on January 1 of the calendar year must submit an annual report to the Drug Abatement Division of the FAA.
- (4) The certificate holder with fewer than 50 employees performing a safety-sensitive function on January 1 of any calendar year must submit an annual report upon request of the Administrator, as specified in the regulations.

The certificate holder has fewer than 50 safety-sensitive employees.
